INTERNATIONAL MADANI SYMPOSIUM SUSTAINABILITY:WHAT CAN THE CIVILISATION OF ISLAM OFFER?

TUESDAY OCTOBER 31, 2023, SERI PACIFIC HOTEL, KUALA LUMPUR

INTRODUCTION :

It is often taken for granted that Islam as a civilisation has something distinctive to offer to contemporary global challenges. We hold that the magnitude of the challenges on the question of sustainability calls for a whole-of-civilisation approach such that the best insights, wisdom and practices from the 1000-year experience of Islamic civilisation are benefitted from accordingly. It is hoped this symposium will offer a fresh impetus in this direction.

OBJECTIVES :

- 1.To redefine the problems as perceived by the United Nations in the SDGs so as to approximate closer to how Muslims perceive the reality of these problems based on the Worldview of Islam (i.e. the identification of root cause and symptoms);
- 2.To assess the major shortcomings of the SDGs approach and to identify ideas and solutions which are more agreeable with the Worldview of Islam which has been overlooked to address the challenges in the environment, society, and economy;
- 3.To formulate a 'whole-of-civilisation approach' in the spirit of Malaysia Madani, as a more substantial and meaningful contribution to the world community that is rooted in the Worldview of Islam and the wisdom from the civilisation of Islam.

INTERNATIONAL MADANI SYMPOSIUM
